

# Basic Needs of Living Things: Ants, Plants & You

Name: \_\_\_\_\_

Draw two living things (an ant & a plant) that you find in your outdoor classroom, and then draw a picture of yourself.

Mark an X next to the things that the ant, the plant, and YOU **need** to survive.

Mark an X if you can **find** a source of food, water, air, sun and shelter in your outdoor classroom for the ant, plant and you.

Living Things	 <u>Food</u>	 <u>Water</u>	 <u>Air</u>	 <u>Sun</u>	 <u>Shelter</u>
1. Draw an Ant	bugs & leaves Need it? _____ Find it? _____	rain & puddles Need it? _____ Find it? _____	all around us Need it? _____ Find it? _____	sunlight Need it? _____ Find it? _____	leaves, rocks & soil Need it? _____ Find it? _____
2. Draw a Plant	sun & soil Need it? _____ Find it? _____	rain Need it? _____ Find it? _____	all around us Need it? _____ Find it? _____	sunlight Need it? _____ Find it? _____	space to grow Need it? _____ Find it? _____
3. Draw You	fruit & vegetables Need it? _____ Find it? _____	clean water Need it? _____ Find it? _____	all around us Need it? _____ Find it? _____	sunlight Need it? _____ Find it? _____	shelter from weather Need it? _____ Find it? _____
