

Outdoor Classroom Project Plan: Materials List & Budget for Simple Songbird Sanctuary

A Songbird Sanctuary is an area that provides a home or habitat (food, water, shelter & places to raise young) for songbirds. Native trees, shrubs, forbs and vines produce mast (nuts or fruit) that provide food for backyard birds while bird feeders can supplement their food sources. Trees and other plants can also provide shelter and places to raise their young, as well as artificial nesting boxes for cavity-nesting birds such as bluebirds or wrens. Water can be provided in bird baths, creeks or ponds.

Habitat Requirements:

- **Low Traffic Flow** (so that students are not continuously walking by the bird feeders and/or nesting boxes)
- □ Established "Cover" (if you have existing bushes or trees so the birds will feel safe from predators you will not need to purchase them for your Materials List below)
- □ Area Approved for Digging (areas where a tree(s) will be planted must not have any utility lines that could be damaged due to digging or from the root system(s) of the tree(s))
- **Full Sun or Full Shade** (be sure to choose the appropriate plants based on your sunlight conditions)

Example Simple Songbird Sanctuary & Educational Sign:

Welcome to our Songbird Sanctuary

We provide habitat (a home) for songbirds.

☑ Plants, bushes and trees provide sources of food and shelter.

 $\ensuremath{\boxtimes}$ Bird feeders provide black oil sunflower seeds and suet.

☑ Trees and nesting boxes provide places for building nests and raising their young.

☑ Our pond and bird bath provide a source of water for drinking and bathing.

Scan this QR Code to learn more about songbirds.
 Enjoy nature's beauty!
 Protect it from litter and vandalism!

Stimated Cost:

□ Simple Songbird Sanctuary: **\$780**

✤ Materials & Supplies with Estimated Budget

OC Project Plan: Example Simple Sanctuary Materials List & Budget

Songbird Sanctuary Plant Suggestions:

- *Always use native plants when possible. Avoid non-native, invasive species, such Privet and Bradford Pear, that will take over and destroy habitat instead of enhancing it! Select one species of tree or bush and purchase a male and female to increase chances of reproduction.
- □ Customized plant identification signs with unique scannable QR Codes linked to webpages on AWF's website are available for the **bolded species in the chart below**. The webpages provide specific information about that plant species including a description of the plant, photos of the plant, maintenance tips and the ecological benefits that species provides.

Small Trees (12-36 ft)	Fruit-Bearing Bushes	Evergreen Bushes	Vines	
Chickasaw Plum, Prunus	American Beautyberry,	American Holly, Ilex opaca	Carolina Jessamine,	
angustifolia	Callicarpa americana		Gelsemium sempervirens	
Eastern Redbud, Cercis canadensis	Blueberry, Vaccinium corymbosum	Yaupon Holly, Ilex vomitoria	Coral Honeysuckle, Lonicera sempervirens
